25X1

1. Soviet geologists have established the existence of oil deposits in the area around Kavarna (N 43-26, E 28-20) in the Bulgarian Dobrudzha. The leader of the commission which carried out the explorations is the Soviet geologist Yuriy Mikhailovich Shubin, and his assistant is Kaloman (fnu), an engineer. Another top engineer and expert consultant is the Rumanian engineer, Vasile Furcel.
2. All farm buildings and houses were removed from an area of about 20 square kilometers at Kavarna and the region has been closed to all civilian traffic. Construction was started on the first oil rigs in May 1953.
